Cookies Policy

We respect your privacy and are committed to full transparency about what cookies that are enabled on our site and how you can easily manage these.

What are Cookies?

Cookies are tiny pieces of information stored as text files on your computer or device when you visit certain web pages. They are used by web developers to help users navigate their websites efficiently. Cookies do not harm your computer or device. They are not programmes, cannot execute code, deliver viruses or extract personal information from your computer.

If you have cookies enabled on your browser, a cookie will be stored on the device, on each subsequent page you visit, and sent back to the web server by the browser. Cookies are designed to hold a very small amount of data specific to a user and the website they are using.

Hantec Markets do not store any identifiable personal information within cookies such as credit card or bank details.

Most sites on the internet use cookies and their purpose is to:

- verify your identity for security reasons and block abusing user

- determine what browser you are using and its settings to display content correctly

- allow the site owners and third-party advertisers to modify content according to your preference

Hantec Markets' Cookies Policy

We are using three types of cookies on our site:

1. **Functional Cookies** are required for the smooth running of the website. If these are disabled, you won't be able to access key pages of the site

2. **Analytical and Performance Cookies** collect anonymous information about how visitors use the site. They help us understand your preferences so we can offer you a better

3. **Marketing Cookies** collect information about your browsing habits in order to present you with more relevant content and adverts based on your browsing activity.

4. **Functional Cookies**

These cookies are essential for the proper functioning of the website. They allow the website to remember choices you make while browsing the site such as your language preferences. They remember user choices and enable the personalisation of content. These cookies are anonymous and do not track your browsing activity on other websites. If they are disabled, you won't be able to access key pages of the site.

Type of Cookie	Source of Cookie	Function
Referral ID	Hantec Markets	Identifies the referral ID, and allows the website to determine if the registering clients came from a referral.
Campaign	Hantec Markets	Allows the website to determine if the registering clients should be under a campaign.
IP Address	Hantec Markets	It identifies the client's IP Address, and allows the website to determine the location country.
Country	Hantec Markets	Identifies the client's location country, and allows the website to display the appropriate content to the client.
Country Code (2-ISO)	Hantec Markets	Identifies the client's location country code, and allows the website to display the appropriate content to the client.
Chatra Functional	Third Party	This is used to support our Live Chat function. A random token is assigned to each user. No personal data is recorded.

Analytical and Performance Cookies

These cookies collect anonymous information about how visitors use the site. These cookies do not collect information that identifies you. All collected information is aggregated and as such completely anonymous. Their unique purpose is to help us understand user preferences and their interests so we can offer a better browsing experience.

Some of the systems we use to track web traffic and site usage are provided by third-party companies such as Google.

Type of Cookie	Source of Cookie	Function
Google Analytics	Third Party	Registers a unique ID that is used to generate statistical data on how the visitor uses the website.
Google Analytics Throttle	Third Party	Used by Google Analytics to throttle request rate.

Marketing Cookies

The purpose of this type of cookie is to collect information about your browsing habits to provide advertising that is more relevant to you. The cookies remember which websites you have visited and are usually placed by third party companies with our permission. They serve to limit the number of times you see the same advertisement as well as to measure the effectiveness of advertising campaigns.

Type of Cookie	Source of Cookie	Function
Google Analytics	Third Party	Used to send data to Google Analytics about the visitor's device and behaviour. Tracks the visitor across devices and marketing channels.
Facebook Ads	Third Party	Used by Facebook to deliver a series of advertisement products such as real time bidding from third party advertisers.
Facebook Impression	Third Party	Used by Facebook to register impression on pages with the Facebook login button.

Facebook Pixel	Third Party	Used by Facebook to see how many people take action on ads and which Facebook Ad led to a conversion.
LinkedIn	Third Party	Used by the social networking service, LinkedIn, for tracking the use of embedded services.
Twitter	Third Party	Used by the social networking service, Twitter, for tracking the use of embedded services.

Cookies Management

You can manage cookies by modifying your web browser settings on your computer or tablet. For mobile phones you might have to check you phone user guide.

Google Chrome

- Click the menu icon in the browser's toolbar

- Select 'Settings'

- Click 'Show advanced settings'

- Choose 'Privacy' and then 'Content settings'

- To enable cookies, in the 'Cookies' section, tick 'Allow local data to be set (recommended)'. This option enables both first and third-party cookies.

- To allow only first-party cookies, enable 'Block all third-party cookies without exception'

- To disable cookies, select 'Block sites from setting any data'

There are several levels of cookie activation in Chrome. To find out more, click here.

Mozilla Firefox

- Click on the menu button at the top of the browser (or 'Tools' if using Windows XP)

- Select 'Options'

- Click 'Privacy'

- Set 'Firefox will' to 'Use custom settings for history'

- Select 'Accept cookies from sites' and your preferred treatment of third-party cookies

- To disable cookies, remove the check mark from 'Accept cookies from sites'

- Click 'OK' to close the window

There are several levels of cookie activation in Firefox. For more information, click here.

Opera

- In the browser's menu, select 'Settings'

- Under cookies, tick 'Allow local data to be set (recommended)'

- To disable cookies, select 'Block sites from setting any data'

- To stop only third-party cookies, select 'Block third-party cookies and site data'

There are several levels of cookie activation in Opera. For more information, click here.

Safari

- In the menu bar, select 'Safari', then choose 'Preferences'

- Click on 'Privacy'

- Under 'Cookies and website data:', select 'Allow from the websites I visit'

- To disable cookies, select 'Always block'

There are several levels of cookie activation in Safari. For more information, click here.

Microsoft Internet Explorer

Versions 9-11

- Select 'Tools' from the top of your browser

- Choose 'Internet Options'
